EDUCATION

Stanford University, Palo Alto, CA

Expected Graduation: June 2026

- Masters of Science in Computer Science – Human-Computer Interaction
- Bachelor of Science in Product Design – Specialization: AI + Digital User Experience | Domain: Planet

WORK EXPERIENCES

Bell AI Fellow

San Francisco, CA

Product Fellow

Aug 2025 – Present

- Selected for a 3-month fellowship focused on building, shipping, and documenting an end-to-end Voice AI product

Tidbit

Stanford, CA

Cofounder & Product

Dec 2024 – Present

- Shipped a collaborative digital scrapbooking platform, leading a cross-functional team of engineers & designers
- Built and launched AI-driven personalization features to optimize collage creation and increase user engagement
- Onboarded 200+ users, leveraging AI-powered user insights to drive feature prioritization and optimize the UX

Oracle

Seattle, WA

Product Management Intern

June 2024 – September 2024

- Increased user efficiency by 60% by collaborating with PMs & engineers to design AI-driven financial planning tools
- Delivered 10+ high-fidelity prototypes and created comprehensive technical documentation for AI integrations
- Redesigned the AI UX for all 15 EPM products, creating seamless integrations across Oracle's design system

UI/UX Design Intern

June 2023 – September 2023

- Developed and launched 18 new components for Oracle's design system, enhancing usability and data visibility
- Led 15+ user research interviews; created handoff documentation driving stakeholder-approved product updates

Tune-In

Stanford, CA

Product Designer

March 2023 – September 2023

- Designed & prototyped a music accessibility app, integrating AI to adapt audio settings in 50+ unique environments
- Conducted 25 user interviews to iterate on designs, creating a comprehensive system with branding and logos

Dynamhex

Kansas City, MO

Data Analytics & Visualization Intern

June 2022 – September 2022

- Designed a digital ranking system of 5,000+ cities for the sales team to identify market opportunities at a glance
- Created data visualizations highlighting key market insights and identified 15 target users to support sales strategy

Stanford University

Stanford, CA

Artificial Intelligence Research Intern

September 2020 – September 2022

- Developed 10 policy documents and scholarly publications for the AI Institute by monitoring & presenting AI trends
- Assisted with publishing analysis on AI policy and its implications, informing stakeholders and researchers

INVOLVEMENTS

Stanford d.school, Design Peer Advisor

August 2024 – Present

- Hosted office hours twice a week to guide 300+ design students on program involvement and opportunities
- Organized 10+ interactive workshops, engaging 200+ collaborators to enhance the design program

Stanford Concert Network, Executive Director

January 2023 – Present

- Managed \$250K budget and coordinated 300+ club members to bring live music artists to campus year-round
- Partnered with Goldenvoice to book artists and produce Frost Music Festival, attracting 7,000+ attendees

Kappa Alpha Theta, Vice President of Diversity and Inclusion

September 2022 – September 2023

- Developed initiatives to foster an inclusive culture and hosted monthly workshops on DEI, engaging 100+ members

SKILLS & TOOLS

Technical: Figma, Web Development (HTML/CSS/JS), Adobe CS (Photoshop, Illustrator), Sketch, Python, SQL, C, C++

Design: User Flows, Information Architecture, Visual Design, Interaction Design, Rapid Prototyping, Usability Testing

Product: Qualitative Interviewing, User Testing, Need Finding, AI/ML Product Integration, Technical Documentaion

Strategy: Product Strategy, Design Documentation, Storytelling, Cross-functional Collaboration, Handoff
